We are the painted metal atelier

Our companies are a **point of reference** in **Italy** and in the **world** for the **production, development** and **sales** of pre-painted aluminium and steel and related **consulting services**.

Our innovative approach, founded on a non-conventional view of the worlds we focus on, has led us to create a veritable industrial **atelier** so that we can fully satisfy any demand from the market of semi-finished **aluminium** and **steel** products.

Production of pre-painted aluminium and steel coils, strips and sheets

Production of anodized aluminium coils

Consulting services, development and sales in Italy and in East Europe

Sales in the European and extra-European markets

Constant growth, strong commitment to the community

Our constant growth is backed by an investment plan for the development of **digitalization, production capacity** and **sustainability**, enhancement of human resources and commitment towards the community.

Beautiful and well made: our values for lasting over time

Our companies share a common spirit: **creativity**, the basis of our production process, which is combined with **design ability, style, elegance**, sensitivity to **beauty**, distinctive marks of **Made in Italy**, a driver recognized worldwide.

We have always been committed to blending intellectual curiosity and cultural interests with a quest for new ideas in order to offer our customers a tailor-made service. We satisfy even the most challenging demands while always remaining anchored to our values: the cult of **beauty**, attention to **details**, quest for **quality** and utmost respect for the **environment**.

tailor-made

Our face, our soul

We are curious, enterprising, and hard working. We believe that **people** are the driving force of a company. They are an essential source of wealth and a fundamental strategic factor for competing successfully in a continuously evolving global market.

75
employees

280 jobs provided indirectly

In our companies, women and men work together with great competence: **75 professionals** characterized by a strong team spirit, who not only pursue the objective of achieving excellence every day, but also share a common vision and concern for environmental **sustainability**, as well as a strong link to the **community**: a value to be preserved, supported, cultivated and to which we strive to bring wellbeing.

Our Collections

Our products are **Collections**, which are the result of our mission to provide a precise, high-quality service, tailored to each customer's needs. All over the world our case histories attest to the **competence, know-how** and **creativity** we have developed over the years and translated into numerous projects.

We offer wide range of solutions, from **Classic** and **Premium** pre-painted or anodized aluminium products to highly **customized** and **diversified On-demand** processing and finishes.

premium classic
on demand

A product of excellence, partner of design projects

Thanks to our **products**, we are able to meet design requirements in the supply of pre-painted metals for numerous **industrial** sectors, ranging from **architecture** and **design** – increasingly oriented towards the realization of customised, cutting-edge projects with a focus on environmental sustainability – to manufacturers of **home appliances** and **automotive** and **naval** components.

Our objective is to prove ourselves as reliable, competent **partners**, capable of providing our customers with a flexible, high-quality service that ranges from consultancy to the supply of materials and after-sales support.

A certified sustainable business model

We have always been committed to guaranteeing the **highest standards** to make our business model increasingly **sustainable**.

Our organization is certified by an **Integrated Management System** of Quality, Health, Environment and Safety.

safety
health
environment

Consistently with our **Worker Health and Safety and Environmental Protection Policy**, we have implemented a Quality Management System in accordance with **UNI EN ISO 9001:2015** and an Environmental Management System in accordance with **UNI EN ISO 14001:2018**, as well as an Occupational Health and Safety Management System in accordance with **UNI ISO 45001:2018**.

Together we build our planet's future

We work with aluminium and steel, recyclable and sustainable materials par excellence. This allows us to save **95%** of the energy necessary to produce new material.

Cost savings and **environmental** protection are enhanced through the use of **alternative energy** sources, **recycling** of paints, **recovery of energy** used in production, wastewater resource recovery and **reduction** of production waste.

An Italian history and identity

Our companies are backed by a deep-rooted tradition and extensive **expertise**, which have guided them along a path that began in **1979**.

over
40 years

Our identity is expressed in a hummingbird, a graphic sign represented in our logo. The extraordinary movement of its wings enables unimaginable feats during flight, symbolizing the extreme versatility of **Alusteel Coating**, **Alpine Anodizing**, **Metalcoat** and **Aleu**, as well as the ability to satisfy the diverse needs of customers, whereas the variety and brightness of the colours of its feathers represent the countless coating solutions we offer.

Our companies identify with **Matteo Trombetta Cappellani, President and CEO**, who, while always remaining loyal to his **ethical** and **aesthetic** values, places an absolute priority on **environmental sustainability**, as well as the enhancement of **human resources** through investments aimed at promoting **well-being in the community** and among the **people** who live there.

“The entrepreneur must play a social role, he must be able to listen and see where change is happening.”
